Case Study 26: College Fest Management Website

Introduction and Purpose

The College Fest Management Website provides students with the key information needed to attend a campus event. The sample page is titled “NRI TechFest 2026” and focuses on Artificial Intelligence.

Main Features

- Displays the fest name and theme.
- Introduces speakers and their roles.
- Shows a simple schedule with speech and workshop timings.
- Provides the venue information: College Auditorium.
- Includes a registration area where a student can enter their name.

Target Users

College students, event organizers, faculty coordinators and invited speakers.

Benefits and Notes

It brings event details into one page, helping students understand what is happening, when activities take place and where the fest is held.
